## Weekly Market Pulse

Today ( 4<sup>th</sup> Nov ) Sensex Crash 1,100 pts, Nifty falls below 24,000; realty, media, oil & gas worst hit

Domestic equity markets experienced gains during last week as concerns regarding tensions in the Middle East subsided.

A notable drop in global crude oil prices on international markets has positively influenced market sentiment and furthermore gains were extended on Muhurat trading session of Samvat 2081 due to buying across the sectors.

BSE IT fell 2.91% as significant selling pressure was witnessed among the information technology stocks after a major global IT company reduced guidance.

However, persistent selling by foreign portfolio investors in domestic equity markets restricted the gains. Additionally, a cautious undertone prevailed ahead of the U.S. presidential election 2024.

On the BSE sectoral front, BSE capital goods rose 4.74% following a rebound in core sector data of Sep 2024 and government spending.
