India becomes 4th Largest Country, what it Means to Stock Market?

To go from being the 10th largest economy in 2014 to fourth largest in 11 years is no mean feat. India's Gross Domestic Product (GDP) has almost doubled during this time frame. According to International Monetary Fund (IMF) data, in 2014, India's GDP was estimated at \$2.0 trillion which went up to an estimated \$3.9 trillion in 2024. This represents a significant increase of roughly 1.9 trillion over the decade.

The IMF report also said that India's economy is expected to grow by 6.2 per cent in 2025 and 6.3 per cent in 2026, maintaining a solid lead over global and regional peers.

Historically, when economies like the US in the 1960s, Japan in the 1990s, and China in the early 2000s crossed similar thresholds, their stock markets experienced significant booms over several years. With India's growing

consumer spending power and expanding businesses catering to local demand, we believe the Indian stock market is well positioned for strong performance in the coming years. This presents an exciting opportunity for retail investors to capitalise on the nation's economic rise and build on the progress achieved so far.

India's growth story remains compelling. If current trends hold, the country is poised to overtake Germany within the next 2-3 years and become the world's third-largest economy. But scale alone is not the goal. The real measure of success will be how effectively this growth is translated into higher incomes, better jobs, and broader economic security for the millions still on the margins.

All eyes on the RBI and it is widely expected to cut the rates by 25 basis points for third successive time and continue to provide liquidity when its monetary policy meeting on June 6th 2025.

Also GST Collections for May 2025 rose to 2,01,050 for the first time since Oct 2022. In the coming days Repo Rate Cut and Tariff talks will drive the Dalal Street.

India's rise to the position of the fourth-largest economy is an important milestone, but it is not the destination. To truly lead on the global stage, the country must ensure that its economic expansion is not only fast, but fair—and that its growth narrative includes every Indian, not just the fortunate few.

We recommend increase your Lumpsum and SIP and to Stay Invested for Long Term.

Weekly Market Pulse

Domestic equity markets fell for the second consecutive week as key benchmark indices BSE Sensex and Nifty 50 fell 0.33% and 0.41%, respectively.

Domestic equity markets began the week on a positive note, supported by optimism over India's growth outlook and the RBI's record Rs. 2.69 lakh crore dividend to the government.

However, gains were later reversed due to delays in the U.S.-India trade deal, rising COVID-19 cases in Southeast Asia, and mounting concerns over U.S. economic stability and tariff-related legal uncertainties in the U.S.

On the BSE sectoral front, BSE FMCG fell 1.70%, led by a sell-off in ITC Ltd. shares after British American Tobacco plc sold a 2.5% stake in the company, thereby relinquishing its veto power in the diversified Indian conglomerate.

BSE Bankex rose 0.31%, led by public sector banks, driven by stronger-than-expected Q4 FY25 results and attractive valuations.

Investor sentiment was further lifted by growing expectations of an RBI interest rate cut, which could boost credit demand and support banking sector growth.

Domestic Equity Market Indices			
Indices	30-May-25	1 Week Return	YTD Return
BSE Sensex	81,451.01	-0.33%	4.24%
Nifty 50	24,750.70	-0.41%	4.68%
BSE Mid-Cap	45,136.35	0.61%	-2.82%
BSE Small-Cap	52,413.25	1.73%	-5.02%

Mutual Fund Corner

Edelweiss Midcap Fund

Midcap's Historically have outperformed the large caps by 8.32% over 5 Years in CAGR

Why to Invest in Edelweiss Mid Cap Fund?

ஃபிக்ஸ்ட் டெபாசிட்டுகளில் பல்வேறு சாதகமான விஷயங்கள் இருந்தாலும், பணவீக்கத்தைத் தாண்டி வருமானம் கிடைப்பது கடினம். தற்போதைய சூழலில் 6.5% - 7% வருமானம் கிடைக்கிறது என வைத்துக்கொள்வோம். இன்றைய காலத்தில் பணவீக்கம் 6% ஆக உள்ளது. வருமான வரி போக பார்த்தால் வருமானம் பணவீக்கத்துக்கு கீழாகவே இருக்கும். பணவீக்கம் 6% என்றால், குறைந்தபட்சம் 8%-வது வருமானம் இருக்கும் திட்டங்களாகத் தேர்வு செய்வது சிறப்பாக இருக்கும். குறைந்து வரும் வட்டி... ஃபிக்ஸ்ட் டெபாசி்டைவிட அதிக வருமானம் தரும் 5 முத்தான முதலீட்டுத் திட்டங்கள் இவைதான்!

The Book I am Reading for the Week!

Here is the book recounting the life and times of one of the most respected men in the world, Warren Buffett.

The legendary Omaha investor has never written a memoir, but now he has allowed one writer, Alice Schroeder, unprecedented access to explore directly with him and with those closest to him his work, opinions, struggles, triumphs, follies, and wisdom.
